EMBARGO : Wednesday, July 23rd 2025, 07:00 AM PT / 10:00 AM ET / 4:00 PM CEST

Expressive E has released **300+ MPE presets** for **DUNE 3**, the flagship hybrid synthesizer from Synapse Audio. The Suite is available now exclusively on expressivee.com.

A sound bank designed for total expression, with DUNE 3 as its sonic foundation.

Following the release of the Legend HZ Expressive Suite, a collection of MPE presets for Synapse Audio's analog powerhouse, Expressive E continues its collaboration with Synapse Audio with a new addition to the Expressive Suite series: the DUNE 3 Expressive Suite.

This new release explores the full expressive range of DUNE 3, a hybrid synth renowned for its three-oscillator engine, flexible wavetable system, and powerful unison architecture, to develop 300 unique MPE presets.

Crafted entirely in-house by Expressive E's team of MPE sound design specialists, these presets were designed to respond with nuance, depth, and musicality. From cinematic textures and sci-fi ambiences to gritty urban tones and evolving pop soundscapes, each sound reacts to the subtlest gestures.

The DUNE 3 Expressive Suite is optimized for Osmose, Expressive E's flagship MPE instrument, and fully compatible with all MPE-enabled controllers.
