

# Press Release

Expressive E releases Lounge Lizard Expressive Suite: 100 MPE presets for AAS's legendary modeled electric piano.

Marseille, France

Wednesday, November 5th, 2025

**EMBARGO: Thursday, November 6th, 2025 – 07:00 AM PT / 10:00 AM ET / 4:00 PM CEST**

Expressive E has released *Electric Expressions*, a collection of 100 MPE presets for **Lounge Lizard EP-5**, the iconic physically-modeled electric piano from Applied Acoustics Systems (AAS).

This new sound bank is part of the **Lounge Lizard Expressive Suite**, available now exclusively on [expressive.com](https://expressive.com).

---

## A sound bank designed for total expression, powered by physical modeling.

Following the **Legend HZ** and **Dune 3 Expressive Suite**, Expressive E expands its collection of expressive sound libraries with a new collaboration—this time with **Applied Acoustics Systems**, creators of the industry-standard Lounge Lizard EP-5.

Built around **AAS's dual tine-and-reed-based physical modeling engine**, Lounge Lizard Expressive Suite explores the full expressive range of classic 9'70s electric pianos, from **silky, crystal-clear tine tones** to **bold, organic reed textures**.

Crafted entirely in-house by **Expressive E's MPE sound design team**, each preset responds to the finest nuances of **velocity, bend-per-note, and aftertouch**, bringing unprecedented warmth and musicality to every note.

---

## Designed for Osmose — and every MPE instrument

The Lounge Lizard Expressive Suite has been **fully optimized for Osmose**, Expressive E's flagship MPE synthesizer, whose **three-dimensional keybed** captures the subtlest gestures of a player's touch.

At the same time, the Suite works seamlessly with **any MPE-compatible controller** — including Ableton Push 3, ROLI Seaboard, and other expressive keyboards — ensuring a consistent experience across setups.

## About Expressive E

Expressive E is a French company based in Marseille, dedicated to creating innovative musical instruments that put expression at the heart of performance. Since 2013, the team has developed a hardware and software ecosystem that combines advanced expressive technologies with modern instrument design, offering musicians intuitive and inspiring ways to interact with sound. From the Touché controller to the award-winning MPE synthesizer Osmose, Expressive E's products open new creative possibilities for musicians, sound designers, and composers alike. Driven by a passion for expressivity, the company continues to push the boundaries of what electronic instruments can feel and sound like.
